### What is PeAks+?

PeAks+ is a dynamic decision tool that enables nuclear part buyers to make the best purchasing decision.

And why is PeAks+ dynamic? It was configured to meet the rapidly evolving needs of the supply chain, because as we all know that landscape is constantly changing.

PeAks+ solves challenges faced in the industry: addressing urgent needs in a timely way. Meeting emergent needs and solving

### Benefits of PeAks+?

It all comes down to getting the quality parts you need, quickly and efficiently. No platform does it better than PeAks.

PeAks is free to use and there is no subscription required. Need help or want to talk to a live person? Yes, we have experts to assist you and who will happily speak with you as needed.

And we know that the part is just one option – we also offer repair and reverse engineering if that is the best solution for you

### What others say about PeAks / Paragon

"The PeAks team truly makes customer satisfaction a top priority."

"When we can't find the part we need, Paragon comes through for us. Each and every time."

"PeAks is quick, it's easy to use, and it saves us money."

"In the 30 years I've worked in the Nuclear industry, I've never
